<p></p><p>Sequels are as much a part of horror as any other ge
nre, so when Jim Vejvoda of IGN sat down 🍋 with Jennifer Kent, the ques
tion of a "Babadook" sequel inevitably came up. Specifically, Vejvoda
asked Kent if she was afraid 🍋 that the stand-alone gem would become di
minished by a "sequel factory," and if she'd have control over an
outside source 🍋 making another movie. Fortunately, Kent confirmed that
she and the producers own the rights to any sequels, so they'd have &#12781
9; the ultimate say. On that note, she took the opportunity to shut down any sp
eculation □□□ we shouldn't expect "The 🍋 Babadook 2." As sh
e explained, "The reason for that is I will never allow any sequel to be ma
de because 🍋 it's not that kind of film."</p>
<p>It seems like Kent always knew "The Babadook" wouldn't ha
ve a sequel, and for good 🍋 reason. She went on to say, "It's
just not what the film's about. It would destroy the integrity of everything
🍋 we worked so hard to protect." That makes sense, as the film&#3
9;s focus is specifically on the trauma of Emilia 🍋 and Samuel, a story
that's now been told. A sequel would dull the underlining meaning of the mo
vie.</p>
<p>Sometimes, a movie 🍋 with a purpose like "The Babadook&qu
ot; is fine standing on its own.</p>
