Throughout each level, you must place down stage elements to alter the environment and protect oranges from the acid rain of an evil cloud. These stage elements may vary in any way, from a triangular block to spiked balls that destroy ice to the oranges themselves. Use your finger, mouse or keyboard to position the various objects at your disposal, and drop them in a way that forms a shelter over the oranges.

Cover Orange: Journey was created by Johnny-K. This is their first game on Poki!
