/p&gt;

&lt;p&gt;&lt;/p&gt;&lt;p&gt;Football corners predictions is one of the fairly ne

w tips offered by tipsters and by us. Some say it&#39;s luck predicting corne

rs in a football game, but we at AFootballReport find in corners very profitable

markets especially in live events when odds go very high as the game evolves

.So how do we predict corners? Of course as any other football prediction and

corners are related to a number of pre-match and team factors. First of all we

should see the type of game we&#39;re looking for or the type of game we want

to predict. Is it a game with a strong favorite or just two equally strength

en teams that play. If it&#39;s a game with a strong favorite probably we sho

uld pay attention to the corners race predictions as strong favorites always kee

p the ball in possession more than the other teams and create more chances as

they push forward almost during the whole game. Keep in mind in live events

that if the score is in favor of the favorite team then this team would not be s

o motivated to create chances and would probably win less corners than in a d

raw event or from behind.&lt;/p&gt;

&lt;p&gt;Second thing we should use when making our corners tips is to see th

e teams lineups and tactic for the upcoming game. Target teams with more off

ensive tactics and teams that use wingers heavily in their attacks. For example,

some good wingers for the home team could easily produce more than 10-20 cro

sses in the penalty area which very often defenders clear in corners.&lt;/p&g

t;

&lt;p&gt;Corners in the late stage of the game are more likely to happen than in

the early minutes. Usually teams are very careful in the opening minutes of

a football game and they try to enter the game more passively than aggressive

ly. As the game continues depending on whether a team is losing or winning the g

ame is leading to pushing forward and sending more players to attack or defen

d. This leads to significantly increasing the number of corners in the last m

inutes and that is what we want when predicting corners.&lt;/p&gt;

&lt;p&gt;Spot derby games. Derby games are always poor in goals, but very ric

h in corners and bookings and cards especially. No one wants to lose a derby, so
