<p>This is the point in a tournament where the next player out does not take any winnings. The remaining players &#128181; will take something away from the table.</p>

<p>Example: The tournament you are in states that the top 25 players will win &#128181; money and there are 26 players left. These 26 players are on the bubble . The one player that is knocked &#128181; out and gets no reward is said to have been knocked out on the bubble .</p>

<p>This affects whether they decide to &#128181; look at survival which will ensure they get a share of the prize on offer, or whether they should play &#128181; with the intention of busting out other players.</p>

<p>¢ Survival: This category of player has their priority on surviving. By doing &#128181; so they will be safe in the knowledge that doing so entitles them to take home some winnings</p>

<p>¢ Different styles: &#128181; Some players will fold just about every hand, even good hands. Their playing style will be as tight as can &#128181; be . Others will start raising and going all-in on lots of hands. The size of a player's stack and how &#128181; the other players are acting will affect these decisions.</p>
