Generally, Telegram bots are safe to use. However, it is essential to be cautious while interacting with bots, especially if they request personal information or access to your account. Stick to reputable bots with positive reviews, and avoid sharing sensitive information with unknown or untrusted bots.

Bots typically imitate or replace human user behavior.

Because they are automated, they operate much faster than human users. They carry out useful functions, such as customer service or indexing search engines, but they can also come in the form of malware used to gain total control over a computer.
