Many day traders like high-volatility stocks since there are more opportunities for large swings to enter and exit over relatively

short periods of time. Long-term buy-and-hold investors, however, often prefer low volatility

where there are incremental, steady gains over time.

What is volatility? Volatility is the rate at which

the price of a stock increases or decreases over a particular period.

Higher stock price volatility often means higher risk and helps an investor to

estimate the fluctuations that may happen in the future.
