The formula calculates the sum of a range of Fibonacci numbers.
$$F(n) = F(n-1) + F(n-2)$$
, with $F(0) = 0$ and $F(1) = 1$.

Rules for Fibonacci Numbers

Fibonacci sequence numbers follow a rule according to which, $F(n) = F(n-1) + F(n-2)$, where $n > 1$. The third Fibonacci number is given as $F(2) = F(1) + F(0)$. As we know, $F(0) = 0$ and $F(1) = 1$, the value of $F(2) = 0 + 1 = 1$.
