The gambler's fallacy is the mistaken belief that past events can influence future events that are entirely independent of them in reality. For example, the gambler's fallacy might cause someone to believe that if a coin just landed on heads twice in a row, then it's due to land on tails on the next toss.

Introdução

No mundo dos jogos de sinuca, a "corrida para as 9 bolas" e "betando nas cobranças de escanteio" são termos que podem confundir os praticantes e espectadores. Nesse artigo, explicaremos o que isso significa e como se aplicar às cobranças de escanteios no futebol, fornecendo
