Many day traders like high-volatility stocks since
there are more opportunities for large swings to enter and exit over relatively
short periods of time. Long-term buy-and-hold investors, however, of
ten prefer low volatility where there are incremental, steady gains
over time.

What is volatility? Volatility is the rate at which
the price of a stock increases or decreases over a particular period. Higher
stock price volatility often means higher risk and helps an investor t
o estimate the fluctuations that may happen in the future.
