ot evenly split. The outcome of each spin is determined by the random landing of the ball on a numbered roulette wheel. The numbers are arranged in a circle around the wheel, with 0 and 00 (the double zero) in the center. The wheel is divided into 36 numbered pockets, with 18 red and 18 black pockets. The ball is spun and the number it lands on determines the winning number. The odds of winning are 36 to 1 for a straight bet on a single number, and 18 to 1 for a bet on red or black. The house edge is 5.26%.
