<p></p>

<p></p><p>To fully exploit the constrained width, avoid loadin

g the neighbouring structures and straddle shared utilities running under the si

te, the % , house was constructed using a lightweight steel frame on a piled sla

b. The steelwork was prefabricated as a series of % , portal frames that were cr

aned down the alley and site-welded together. Given that every inch in such a na

rrow space % , was valuable we chose to fully weld the connections and express t

he frame internally, even utilising the depth of the % , steels to maximise the

space.</p>

<p>Alongside the painted steel a simple palette of spruce plywood, douglas

fir joists, terrazzo and cork % , flooring enriches the interior. Externally th

e timber framed walls are clad in handmade pewter glazed brick slips with a pati

na % , that reflects the changing light of the sky. Both the simply landscaped a

nd planted rear courtyard and the garden in % , front of the house enhance the f

eeling of space in this small dwelling.</p>

<p>This self-build project had a long gestation, fitted % , in around prof

essional and family life. The design and construction were developed as time and

money allowed so whilst planning % , consent was given in January 2014 and the

ground works commenced in the spring of 2024, the building was not % , completed

until August 2024. We worked closely with friend and joiner Michael Tye to lead

a small team of local % , subcontractors and employed specialist fabricators fo

r certain key packages as well as undertaking a fair amount of the work ourselve

s.</p>

<p>The % , result is a unique and highly crafted home that is a testament

to the commitment, effort and support of many % , people. By replacing a narrow

disused alley with this comfortable small home we hope to have enhanced the stre

etscape we % , inhabit. As the building completes the terrace, so does the front

garden - with the simple bin store, planting, level % , access and bike parking

we aimed to keep it open and reinforce the pavement line without making a hard

boundary. % , The development highlights the viability, both economically and sp

atially of small brownfield sites to provide high quality sustainable developmen

t at % , a time of housing shortage. We see it as a model for other seemingly un
