O que é Roll-over 10x?

Roll-over 10x é um termo usado em apostas esportivas que exige que um apostador aposte uma determinada quantia em determinados jogos ou eventos esportivos antes que um bônus seja disponibilizado. Isto significa que um apostador é obrigado a apostar no mínimo 10 vezes o valor do bônus antes de poder sacar as suas ganâncias.

Como calcular a Roll-over Rate?

Para calcular a roll-over rate, subtraia a taxa de juro da moeda base da taxa de juro da moeda da cota, e divida o resultado por 365 vezes a taxa de cmbio base.

Consequências e como abordá-las?

Canva Free gets you all the basic tools you'll need to design on your own or with collaborators. This includes thousands of templates, millions of media from {img} to graphics and videos, plus an easy-to-use editor to create anything you need.
